

Resilient Cities & Communities

Visionary People. Vibrant Places. Regenerative Futures.

Dear Friends and Members!

Thanks so much for your support and for asking our elected leaders to advance bold climate solutions!

Let's Celebrate! Together we supported our MN Legislature & Governor to approve **historic** -

- **Policies** with clear pathways to achieve low-carbon electricity, buildings & transportation in MN, and
- **Funding** to match federal grants & tax credits to boost city, business & household climate action!

Let's keep up our momentum to ensure that new federal & state policies & funding get **implemented locally!**

Make a gift in June to sustain RCC's work supporting local implementation rccmn.co/donate/

Together we'll raise \$20k for RCC's next steps connecting residents, cities & counties to get local projects done!

Please join us this summer to re-connect with your friends and peers! <https://rccmn.co/the-network/>

Resilient Cities & Communities Summer Events & Projects supporting local climate implementation.

1. Hands on Projects - Getting big things done with residents & cities!

- **Friends of Lake Hiawatha/Rice Lake/Bde Psin** - Join us Saturday mornings for habitat restoration & monthly for Native-Led Plant Walks & Speaker Events rccmn.co/friendsoflakehiawatha/
- **Minneapolis Climate Equity Plan** - Connecting volunteers by ward to plan block outreach for home weatherization rccmn.co/minneapolis
- **Hi-Lake District Geothermal** - Planning with residents, businesses & developers to make new buildings geothermal-ready to reduce heating & cooling costs rccmn.co/district-ground-source-energy/

2. Peer Learning & Action - Connecting cities to implement projects together to scale up high-impact actions with more cities.

- **County Clusters** - RCC convenes city, community & county leaders quarterly to share updates & coordinate funding to implement high impact actions together rccmn.co/county-clusters/
- **21st Century Communities Peer-Learning Webinars** join us **2nd Thurs**, 12:30pm to 2pm on zoom with local teams guiding re-development projects with developers to build low-carbon, resilient buildings, energy & transportation rccmn.co/21st-century-communities/

3. Collaborative Climate Implementation - convening partners to align strategies & funding by topic to boost local implementation. We're linking state, metro, county, city, nonprofit, community & EJ leaders & staff. rccmn.co/collaborative-climate-implementation/

We can't do our work without you! Thanks for [donating today](#) and for joining us this summer! Sincerely,

Sean Gosiewski
